

Peaks Society

The Summit Foundation

The Peaks Society of The Summit Foundation was established to honor and recognize the generosity and foresight of individuals who have planned for the future by designating a gift in their estate to meet ongoing community needs.

Naming The Summit Foundation as a beneficiary in your will, trust, retirement plan, or insurance policy can be the simplest gift to permanently link your long-standing support to our community.

The Peaks Society celebrates those who have made a commitment to The Summit Foundation to extend their charitable giving beyond their lifetime. Thank you to these individuals who have let The Summit Foundation know of their planned gift intentions. We hope others are inspired by their example.

Unless otherwise noted by the donor, planned gifts are dedicated to the Peaks Society Fund, a board-designated fund within The Summit Foundation's Endowment Fund. The Peaks Society Fund is allowing The Summit Foundation to augment its support of nonprofit organizations operating programs in Summit, Lake, Park or Grand Counties.

During the fall 2016 grant cycle, The Summit Foundation's Board of Trustees allocated \$60,000 from the Peaks Society Fund to support the grant cycle requests. This allocation enabled The Summit Foundation to exceed \$1 million in grant distributions in a single cycle for the second time in its history.

If you have made a charitable estate gift to The Summit Foundation, or are considering making a planned gift to recognize The Foundation, please consider informing The Summit Foundation so we may also recognize you as a member of The Peaks Society.

Beyond preparing a gift to The Summit Foundation and informing us, members have no obligations.

Thank you for considering The Summit Foundation in your legacy planning.
